

## after your appointment checklist

- **Schedule any follow-up appointments** – You may do this when you check out for your appointment, we may call you to schedule, or you can schedule online for many services at [childrensdayton.org](https://childrensdayton.org)
- **View your after-visit summary and any test results** – Check MyKidsChart for a summary of your visit and to view any test results.
- **Thank or recognize a staff member** – Did a staff member go above and beyond during your visit? Thank them or nominate them for one of our staff awards on our website.
- **Share your story** – When your child is in the hospital or going through a difficult health journey, it can bring comfort to hear from other families. Fill out our online form to share your story and provide encouragement to other families who may go through a similar experience.
- **Pay your bill** – We know paying for healthcare bills can be scary and overwhelming. We are here to help. Learn more about talking with a billing expert, applying for financial assistance, paying your bill on MyKidsChart, and more on our website.
- **Give feedback** – Please complete any surveys you receive after your visit. This helps us make the experience and care we provide even better.
- **Join our family partner program** – Family partners share their stories, ideas and experiences to help us keep improving. From a virtual e-advisory group to our patient family advisory council (PFAC), there are many opportunities to share your voice!
